

anivit[®] B12

Cyanocobalamin[®] (Vitamin B12) 250µg/ml
As an aid in raising blood Vitamin B12 levels in sheep,
calves and foals

Presentation: A clear, red, sterile solution for injection containing Cyanocobalamin (Vitamin B12) 250 micrograms in 1ml. The product contains Phenol 0.5% w/v as a preservative.

Uses: For intramuscular or subcutaneous injection. As an aid in raising blood Vitamin B12 levels in sheep, calves and foals. For use in the treatment of Vitamin B12 deficiency, and for poor growth rates and general unthriftiness in young animals when associated with the above deficiency.

Dosage: Sheep 1 –3ml. Calves and Foals: 2 –4ml.

Repeat in 7 days if required.

By intramuscular or subcutaneous injection.

Warnings: Do not give by the intravenous route. Observe normal aseptic precautions. Following withdrawal of the first dose, use the product within 28 days.

General precautions: Care should be taken to avoid accidental self-injection. If accidental self-injection occurs, seek medical advice immediately.

In case of accidental ingestion, seek medical advice immediately.

In case of accidental spillage onto the skin or eyes, wash the affected area immediately with clean running water. Seek medical attention if irritation persists.

If you notice any serious effects or other effects not mentioned in this leaflet, please inform your veterinary surgeon.

Rinse containers thoroughly with water. Dispose of rinsings in slurry or dirty water. Dispose of rinsed containers in the farm refuse. Used containers should not be recycled. When this container is breached for the first time, using the in-use shelf-life which is specified on this package leaflet, the date on which any product remaining in the container should be discarded should be worked out. This discard date

should be written in the space provided on the label.

Withdrawal period: Cattle, sheep and horse meat: zero days. Cattle and sheep milk: zero hours.

For animal treatment only.

Disposal: Dispose of any unused product and empty containers in accordance with guidance from your local waste regulation authority.

Pharmaceutical precautions:

Do not store above 25°C. Protect from light.

Keep out of the sight and reach of children.
