### 4. FIRST AID MEASURES

- Inhalation** : Remove to fresh air. If any signs or symptoms occur or persist seek medical advice
- Skin Contact** : Wash thoroughly with soap and water. Remove contaminated clothing and wash before reuse. Unlikely to arise from unbroken tablets.
- Eye Contact** : Immediately flush eyes with copious amounts of water for at least 10 minutes. Immediately obtain medical assistance.
- Ingestion** : Immediately obtain medical assistance. Subject must be kept warm and at rest.

NOTE TO PHYSICIAN: No empirical data are available for humans. The most significant sign is likely to be marked hypotension. Repeatedly administer medicinal charcoal in a large quantity of water. NOTE; never give anything by mouth to an unconscious person. Do not induce vomiting. The active metabolite, benazeprilat, cannot be eliminated to a significant degree by dialysis. If blood pressure falls severely, administer physiological saline i.v.

### 5. FIRE FIGHTING MEASURES

- Extinguishing media:** The preparation is non-flammable. In the presence of fire, dangerous fumes may be given off. Extinguishing media include powder, foam, carbon dioxide or water spray (do not use direct jet of water). Measures should be taken to prevent contaminated extinguishing media from seeping into the ground, contaminating water courses or spreading uncontrollably. Protective clothing and breathing apparatus must be worn.

**Fire and explosion hazards:** None.

---

### 6. ACCIDENTAL RELEASE MEASURES

- Personal Precautions** : Wear rubber gloves when handling. Prevent skin and eye contact.
- Environmental Precautions:** Do not contaminate water courses or sewers.
